

# Staff Reader of the Month

One of Bruce Trail's December Staff Readers of the Month is **Mrs. Baron**. She is an awesome secretary at B.T. Please read on to find out more about this passionate reader!!

***What book did you read most recently?***

- The Cursed Child

***What book "hooked" you into reading as a kid? If you can, explain why this book had such a positive reading effect on you.***

- As a kid I read whatever I could get my hands on. My favourites were series where you could delve into the world of the characters and evolve with them. Some of my favourites were The Babysitters Club, Nancy Drew, and the A Wrinkle in Time series. Reading these books allowed me to escape into worlds that weren't limited, but were instead always surprising and welcoming to me.

***Do you have a favourite place to read? If so, where is it and why do you enjoying reading there?***

- As a kid I read at all times but especially at night. I always had a flashlight and dog-eared copy of one book or another safely tucked inside my pillowcase.

***What do you love about the BT Library?***

- The BT library is always evolving. Students are often excited to share information about the new author of title they have discovered with the help of the great library staff!

***If you were stranded on a desert island and could bring only 1 book, what would it be and why?***

- The Catcher in the Rye by J. D. Salinger. I can't count how many times I've read this book but I can always pick it back up to read again. Even though this book was written about forty years before I first picked it up it has never felt dated to me. The voice of Holden Caulfield was so unique, honest, and self-deprecating that I was excited at the thought that maybe my parents' and grandparents' generation weren't as "old-fashioned" as I thought.
