

# Staff Reader of the Month

Bruce Trail's November Staff Reader of the month is **Ms. Anderson**. She is a grade 7 teacher at B.T. Read on to find out more about this dedicated reader!!

***What book did you read most recently?***

- Big Little Lies by Liane Moriarty

***Do you have a favourite genre?***

- Fantasy Adventure

***What book "hooked" you into reading as a kid? If you can, explain why this book had such a positive reading effect on you.***

- When I was young, I first got hooked into reading by the Nancy Drew series. I loved that the main character was a strong-willed young girl, and I was drawn in by the mysteries.

***Why do you enjoy reading?***

- Reading appeals to me for so many reasons! I read the paper every morning so that I can learn about current events. I read non-fiction texts so that I can learn to be a better person and teacher. I read cookbooks because I love to find new recipes, and I read fiction because I love the escape. Physically, I can be in a room with a hundred other people, but in my mind I am not. I forget all my cares and worries when I am reading and I lose myself in the story.

***Do you have a favourite place to read? If so, where is it and why do you enjoying reading there?***

- I love to read in my bed before I fall asleep. That said, I just bought a new reading chair and ottoman for my room. I think that may become my new favourite place.

***What do you love about the BT Library?***

- I love that it is a comfortable, safe and quiet place where I can go to work, read or just visit with Ms. Westbury and Mr. Skinner.

***If you were stranded on a desert island and could bring only 1 book, what would it be and why?***

- I would bring the Eragon series. I loved the story and the quality of the writing. I was amazed that it was written by such a young person. When I read it the first time, I had to wait a long time between books as their release was often delayed. Consequently, I lost the thread of the story. I would like to read it again from start to finish without interruption.
